

CHARTER FOR COMPASSION PAKISTAN

Charter for Compassion Pakistan is a cooperative effort to restore not only compassionate thinking but, more importantly, compassionate action to the center of our lives. Since inception, Charter for Compassion Pakistan has expanded into a myriad of sectors including education, healthcare, women empowerment, sports and organizations through collaboration with the civil society, businesses, city administration and governments.

COLLABORATIVE LIBRARIES PROJECT

The Collaborative Libraries Project (CLP) was created to help bridge the gap between the underserved and privileged schools of the city. The project allows for schools to participate in various student led activities with an objective of creating a discourse while understanding each other's challenges and resources. With 15 libraries already established and another 10 underway, over 5000 children are the true benefactors of the collaboration through bi annual book collection drives, dramatic readings, theatre plays, and debate competitions. The project has now evolved by bringing about participation from private business organizations through employee engagement initiatives.
